

Atlas 1 Spreader

SP10

Product Name	Atlas I
Product Code	SP10
Hopper Capacity	25kg
Minimum Spread	1m
Maximum Spread	3.5m
Weight	7.2kg
Assembled Dimensions	60 x 36 x 81 cm
Hopper	Recycled Plastic
Frame	Coated Steel
Wheels	Plastic
Spread Volume Limiter	Yes
Spread Width Limiter	No
Adjustable Handle	Yes
Maximum Operating Speed	Walking Pace
Country of Manufacture	UK

The Atlas 1 Spreader is a hand-pushed spinner spreader, manufactured in the UK by our in-house team for quality and reliability. It features a durable plastic hopper on a coated steel frame, with sturdy plastic wheels for smooth operation at walking pace. With a maximum spreading width of 3 metres, it's ideal for small to medium-sized areas such as playgrounds, driveways, car parks, and wider paths, and can cover a large area in a single pass. The spreader includes a robust agitator for consistent material flow, a spread guard for directional control, an adjustable handle to suit different user heights, and a spread limiter for precise application. The Atlas I is suitable for use with de-icing salt conforming to BS3247:1991, making it a reliable choice for effective winter maintenance.
